## PROFILE

A creative thinker, adept in software development and working with various data structures. Bringing forth a motivated attitude and variety of powerful skills. Committed to working as a collaborative and positive team member, striving to utilise my knowledge and expertise for optimal engineering results.

## PROJECTS

### DEVELOPER MEDIA [MERN STACK]

Developer Media is a **Mern Stack** Application which is deployed over **heroku**, It is an application that helps developer to connect and help fellow developers and also helps to showcase their github repos. The source code is in **github** for further development.

### WEBSCRAPPER [PYTHON]

This Project was developed for **extracting data** from websites. The testing of the project was completely done on dummy data site hosted globally. The project is in my **github** for further use.

### YOUTUBE U.I. CLONE [REACT]

Using **React JS** the youtube user interface was developed, this clone also used **Material UI** for designing purposes and also **Material Icons** for various icons.

### ROCK, PAPER, SCISSOR [PYTHON]

Rock, Paper, Scissors are one of my favourite game that is why this game was developed it can be played by two people at a time. This Project was completely developed in **Python 3**.

## EDUCATION
